Sam Schonasky offers a part of his culture for Eagle Scout project

Ken Luchterhand
Staff Writer

Dark clouds filled the sky, but the energy and enthusiasm of Sam Schonasky outshined the raindrops that day.

He brought that drive to the Historic Indian Agency House grounds on Saturday, May 19, to accomplish what he had been planning for months: to organize the construction of a ciiporike.

The effort was part of his Eagle Scout project, a project required for him to earn the new Boy Scout ranking. When it all came together on Saturday, he was proud of his accomplishment, along with the pride of his friends and family.

Sam, 14, is the son of Danielle and Mike Schonasky of Endeavor, WI. His grandparents are Jonathan Whitebear and Sharon Whitebear.

"I like it. It's really cool," Sam said. "I wanted to spend the night in it, but it's supposed to thunderstorm tonight."

The building of the ciiporke was not the main test for him, however. It was more of a test to evaluate his

leadership and organizational skills, part of the Eagle Scout evaluation process.

Jennifer Blau, director of the Historical Indian Agency House, thought the idea was perfect for the facility and that the ciiporike could remain on the grounds indefinitely for visitors to see.

At about 8:30 a.m. on Saturday, the group of about 35 people gathered at the Historic Indian Agency House land, including Ho-Chunk Nation Tribal Historic Preservation Officer/ Cultural Recourse Division Manager Bill Quackenbush, who provided a substantial amount of guidance. Each of the participants took part in the construction.

Although the actual construction of the ciiporike was significant, the real test was the leadership Sam exhibited to get the job done. He needed to plan the event, recruit volunteers, arrange for materials to be present, be able to delegate duties, and plan to contingencies, such as failure or some sort.

It was completed around 1 p.m., with the volunteers famished and ready to eat lunch. Sam had to plan the lunch, too, in which he arranged for the help of his mother. He asked his mother to be in charge of the food and his aunt and grandmother jumped in to help. His gaga is the world's best frybread maker, he said.

Before the meal began, Sam's grandfather Jonathan Whitebear provided the prayer and some perspective on his project. He said he was born and raised in a ciiporike and he was honored that his grandson chose a project that was so integral and significant to the culture of the Ho-Chunk people.

Mike, Sam's father, is proud of what he accomplished.

"It's not easy to do – organize and lead people," Mike said. "This is one of the more ambitious projects I've seen. I've heard of some that were rather wimpy – like

painting a mural or planting flowers. This one was a major effort."

With the ciiporke complete, Sam was pleased of the outcome.

"It's cool to accomplish. It's a great thing to put on my resume and it'll help me down later in life, too," Sam said.

His grandfather had told him quite a bit about living in a ciiporike, that there were all different kinds. Some were used for storage, some small ones were used for when a woman would give birth, and the ones used as houses came in all sizes. Often more ribs would be added to lengthen the structure and many families would live in the same one. Each family would have its own fire in the center of that family's section.

He wants to be an Eagle Scout because he has been involved in the Scouts since he was very young.

"No one else in the family has ever been an Eagle Scout. My brother wanted to be, but he timed out, meaning he grew older than the limit for becoming an Eagle Scout," Sam said.

He has two brothers, Christopher, 23, and Josh, 24.

The ciiporike project was just one of many requirements to be able to achieve Eagle Scout rank. Sam had

Sam ties the canvas tighter on the inside of the ciiporike. Although Sam performed many portions of the work, the bigger assignment was coordinating all the work with his recruited volunteers.

to complete paperwork for the planning of the project and will now have to complete paperwork for analysis. Another requirement is for each Boy Scout applying for Eagle Scout status to have 23 merit badges, 13 of them required such as first aid, citizenship, swimming, camping, Family and emergency preparedness. He still has two required to finish before he can achieve the ranking.

Although he has earned 45 merit badges, he still needs two of the required badges, which are one in environmental science and another in physical fitness.

The ciiporike project was the major requirement for becoming an Eagle Scout. Scoutmaster Justin O'Rourke was impressed with Sam's project.

"It's great. It's one of the more unique projects I've seen. I'm glad he chose one that is so personal to him," O'Rourke said. "Kids can come out here in the future and learn about this structure and learn about what is so important to him."

With the guidance of

Quackenbush, the construction of the ciiporike went without a hitch.

"Sam organized, recruited, delegated to others. He was so well organized, he was done before the construction started, other than paperwork," Mike, his father, said.

"The only problem is nothing went wrong," he said. "Failing is a better teaching experience than everything going right. The Scout Master looks for when things go wrong and what they do about it."

HO-CHUNK NATION DEPARTMENT OF TREASURY

ANNUAL LEAVE CARRYOVER INTO FISCAL YEAR 2020

May 10, 2019

To: Ho-Chunk Nation Employees

HO-CHUNK NATION'S FISCAL YEAR RUNS FROM JULY 1 – JUNE 30.

The Ho-Chunk Nation's Employment Relations Act [ERA] of 2004 as amended on May 23, 2017 states:

a. Annual Leave.

(2) Any hours over one-hundred sixty (160) will be paid to the employee at the end of the fiscal year provided that the employee has used sixty (60) hours of annual leave during that fiscal year.

The last day of the fiscal year is fast approaching. Due to June 30, 2019 occurring on a Sunday, the last day to use annual leave [for this calculation] will be June 29, 2019.

This means one of two things:

1. If on June 29, 2019 you have over 160 hours of annual leave accrued AND have used at least 60 hours of annual leave between 7/1/2018 and 6/29/2019, you will be paid for any annual leave hours over 160. These hours will be paid by a separate payroll check, in the same manner as you currently receive your payroll. All vacation payouts checks/advice will be mailed to the address on file with personnel. This payment will be processed before the end of July 2019.
2. If on June 29, 2019 you have over 160 hours of annual leave accrued but have NOT used at least 60 hours of annual leave between 7/1/2018 and 6/29/2019, your annual leave balance will be reduced to 160 hours. The annual leave hours over 160 will be lost.

If you have any questions, please don't hesitate to contact the Treasury Department.

New 10-Year Strategic Plan for HCN

Submitted by Forrest Funmaker

The Office of the President is pressing hard to get the new 10-Year Strategic Plan initiated by the start of the next administration in July. Currently they have contracted an outside vendor, The Whitener Group, to finish up the project by middle of June. The project has had 2 onsite meetings; one at the Black River Falls Gaming Conference Room; and the second in the legislative conference room and DICC Multipurpose room.

Executive Directors were first interviewed individually to provide an overall perspective on the strategic plans for each Department. Next each Executive Director was asked to do a survey of top concerns they want to get done in the next ten years. These answers were compiled and put into groups, so that others could see the plans in their entirety and assess whether the direction was good for each one.

The second meeting began with different groups; from all the different departments. This included Department and Division managers to have a say in the direction or could potentially drive the strategic plan in the new administration. This would verify the nuts and bolts approach to getting this document done.

President Wilfrid Cleveland cited a story about how Ho-chunks were a long time ago. His idea was to explain how Ho-chungra should interact today using that same system. "So a long time ago when someone maybe hunting and they came across this huge blueberry patch, they didn't just go and try to align those blueberries for themselves. They would go back to the village and make an announcement, 'hey found a huge blueberry patch, let's all go over there and harvest these together.' The village would then follow to the location and pick for the village."

Each group was given a topic to disseminate. They had to look at how easy the idea was to get done and what type of impact it would have. These were then placed on a big chart to indicate where they aligned in time and impact. Most of the items were ideas that could be done in a short amount of time and had impact. There some ideas that seemed like they would take longer due to the idea of not having support or the enough money to follow it into implementation.

The Whitener Group will take the information back and assemble for a final draft to be presented in June. This document will be a transition document that will assist the next administration with solid foundation to follow up. It will provide each department a fiscal year plan to implement and use for the next years and can be modified depending on funding in that year.

Attention: The Next Deadline of the Hocak Worak will be June 7th which will be published on June 14th. Please contact Hocak Worak at ext. 1006 if you have a change of address or would like to be placed on the mailing list.

Address verification to be available online

Ken Luchterhand
Staff Writer

There's an easier way to verify your address to the Ho-Chunk Nation Enrollment Department.

It's coming soon. June 19, to be exact. Tribal members will be able to verify their addresses electronically, meaning each person will be able to complete the process from the comfort of their own home. The Enrollment Department has been working on the online Address Verification Form process for approximately two years.

"It's for the convenience of tribal members," said Enrollment Officer Rita Gardner of the Enrollment Division.

The paper version, the method used until now, still will be available to those tribal members who prefer to complete the process that way. However, the paper version has to

be documented by a Notary Public.

The online procedure can be done quickly, just by entering the information and the click of a mouse.

"It is an important process," Gardner said. "We're working to streamline the procedure."

The address verification process is necessary for voting and to measure district population. It also is used when disbursing per capita payments.

"We want people to understand that it's an easy process once the information is entered into the computer. In future years, you won't have to receive the AVF. There isn't anywhere the process won't follow. We have tribal members all over the world."

The online process will be available on June 19. All address verifications need to be completed by July 15.

Address Verification Instructions

The Address Verification form is used to determine residency for voting and district population. **You must submit your Annual Address Verification (AVF) form in order to be eligible for your Per Capita Distribution.** The U.S. Postal Service will return any undeliverable mail to the Office; The Nation is not responsible for sending a per capita check to the wrong address if the Tribal member has failed to provide a current and correct address (See [Ho-Chunk Nation Per Capita Distribution Ordinance](#)).

This year, 2019 we set up a process for you to submit your Address Verification electronically. If you choose to submit your AVF electronically, you will not receive a paper AVF in the future. If you don't feel comfortable using the digital format you're still welcome to submit the paper address verification form instead. It is not necessary to submit both, if you submit both Electronic and a Paper AVF, the Office will default to the Electronic submission.

You may submit your AVF electronically starting JUNE 19, 2019. To submit your AVF electronically follow these instructions:

- Go to the following website: AVF.Ho-Chunk.com
- A page will appear where you will enter the following information:
 - ✓ Last 4 digits of your Social Security Number
 - ✓ Last 4 digits of your Tribal ID
 - ✓ Your Date of Birth in the format: MM/DD/YYYY
- Click "Submit"
- Page 2 will appear, where you will fill out your Address Verification information, when completed, Click "Submit for Review" button.
- Review your information, if everything is correct, Click the "submit" button to send your information.
- Once you confirm your submission, it will let you know your AVF was submitted and return you to the start page. At this point you may exit the website.

For your Paper AVF, the following RULES will apply:

- Use black or blue ink only
- **NO White Out.** Draw a single line through the mistake. Write the correction above or below the line and initial the correction.
- Completely fill out the AVF including the Labor Questionnaire on the back of the AVF;
- You must sign your name as it appears on your AVF;
- You must return your AVF even if you do not receive your Per Capita distribution due to maximum deductions.
- Photocopies, scanned or faxed form are not acceptable;
- PO Box as Physical Address is not acceptable
- Form must be signed **IN FRONT** of a Notary Public;
- **A \$10 fee will be charged for a Reprint. Cash or Money Order only.**

To apply to your August 1, 2019 Per Capita Distribution, the following DEADLINES "MUST" be met:

- Voluntary Tax Withholding forms must be in the Office by **Monday, July 15, 2019 @ 4:30 p.m.**
- Direct Deposit Authorization Forms must be received **in Treasury by Monday, July 15, 2019 @ 4:30 p.m.**
- All AVF'S must be in the Office or entered On-line by **Monday, July 15, 2019 @ 4:30 p.m.**

TAX INFORMATION

The Annual gross amounts of your Per Capita payments are taxable income. If you would like to voluntarily have Federal or State Income Tax withheld, you may use the Voluntary Tax Withholding form found on the Nations website.

"Promptly return your AVF for uninterrupted delivery of your August 1, 2019 per capita distribution!"

Presidential, legislative candidates offer their views concerning Ho-Chunk issues

Ken Luchterhand
Staff Writer

Presidential and legislative candidates for the June 4 General Election were provided the opportunity to answer two questions for this issue of the Hocak Worak.

Each candidate was given five questions, of which they were instructed to choose two questions. They were allowed to use up to 700 words total for both answers.

The questions were:

1. What are some goals and objectives for the Ho-Chunk Nation in the next four years?

2. What do you think about the Ho-Chunk people's investment into the gaming business and do you think any changes need to be made in regards to business ventures?

3. Do you think any changes need to be made to the present blood quantum requirement for enrollment membership?

4. Should there be any changes made to the present Children's Trust Fund and the disbursement of the monies as the children reach a certain age or level of education?

5. Should the Ho-Chunk Nation make more programs available to tribal members to be able to start their own businesses?

The candidate answers are provided below:

Presidential candidates

Gregory S. Blackdeer

1. What are some goals and objectives for the Ho-Chunk Nation in the next four years?

For the People

- Workforce development: leadership and management training, housing construction skills, mentorship and internship opportunities, and job placement supporting capable qualified Ho-Chunk people.

- Organize transportation pool of Ho-Chunk people willing to transport Ho-Chunk people beyond those who are court-ordered.
- Encourage our youth to value and provide service—going into the military, getting an education, becoming part of the workforce, and/or being good parents.
- Create HCS-based rehabilitation and recovery programming by defining and infusing HCN cultural practices with current established best practice programming.
- Community-healing as part of the tribal action plan by increasing awareness about historical and intergenerational trauma, address lateral oppression, recognize the people as survivors, and address our healing needs.
- Create community-based drug endangered community task forces to address the on-going drug epidemic.

Regarding Government Programs and Services

- Conduct a review to familiarize myself with current and

near future projects

- Update our strategic plan
- Review and revise standard operating procedures
- Review, assess and reform the Tribal Action Plan and effectiveness toward the drug epidemic
- Appoint key personnel to help organize and maintain community-based drug-endangered community task forces to ensure communities have the resources they need
- Review existing health insurance plan, specifically addressing pharmacy concerns
- Preserve and protect our land for our cultural practices and way of life.
- Lead the community so we can embrace our similarities, respect our difference, and remember our strength of standing together as one.

Regarding Business

- Advance the development of our financial resources
- Shape our future financial sustainability
- Address existing customer service plan
- Review, monitor and redress Beloit planning as needed
- Develop workforce by having Department of Labor formulate employment tracks for entry level positions; offer training and professional development to ensure best-practices are followed in all executive branch departments
- Recruit tribal members for our future workforce by using "grow your own" methods: tracking, promising, incentivizing, educating, and returning to work for Ho-Chunk Nation in their field
- Ensure green energy development and sustainability are taking place by retrofitting existing buildings where possible and ensuring existing and future building plans incorporate green sustainability.

2. What do you think about the Ho-Chunk people's investment into the gaming business and do you think any changes need to be made in regards to business ventures?

I don't know how an individual would answer this question. If you're asking me if I'm ok with allowing tribal members to invest in our businesses I think tribal members already invest in the businesses by electing district legislators to work on their behalves.

I have several so I have selected a few, I would like to shape our future financial sustainability, review, monitor and redress Beloit planning as needed. Recruit tribal members for our future workforce by using "grow your own" methods. Update and work with any existing strategic plans. Review, assess and reform the Tribal Action Plan and effectiveness toward drug epidemic. Work diligently with Executive Directors and legislature with the goals and objectives to lead our community to embrace our similarities, respect our differences, and remember our strength of standing together.

1. Some goals and objectives for the Ho-Chunk Nation in the next four years are to return the voice of the Nation

to the people who have been overlooked time and time again at our annual General Council meeting. The people are nearly giving up on their tribal government and faith in elected officials to be responsible leaders for the betterment of all tribal members.

In my opinion, the basic intentions of the people is getting lost by tribal leaders. It's got to a point of accountability and transparency are only catchphrases. It can be attained with proper leadership. Openness in the budgeting process, in contracts, and feasibility studies on business investments is needed to reassure that tribal dollars are being spent responsibly.

Without the people's involvement, interest, and participation we can't move forward with consensus in a good direction. I firmly believe the people know what they want from their tribal government.

2. The Ho-Chunk Nation's investment into the gaming business has been very fruitful. It has certainly improved our quality of life.

Revenue from gaming hasn't been what we've seen in years past. Our biggest customers are those retired people with a disposable income to gamble with. But that age group is dying out, and their money is being transferred to a different type of spender. If we want to see our revenue increase, we have to spend our marketing money in a more responsible way to attract the young gambler.

In the age of algorithm based marketing, we need to look at the numbers and invest accordingly.

Collectively, we need to decide if we keep all our eggs in one basket; and that basket is gaming.

For years, we, the people, have wanted to separate business from government. The government run business prevents us from capitalizing on the business model that have been proven to work. We have to allow well-trained, experts to put our money to work for us if our goal is to increase our revenue.

I'd like to see us create another Section 17 Federally-chartered corporation, or even a tribally chartered corporation, whichever model is most useful to enter the business world. We may have never had a more favorable environment with our current state and federal officials willing to work with us in regards to business ventures. I'm excited for the possibilities to solidify our legacy as Ho-Chunk people.

1. What are some goals and objectives for the Ho-Chunk Nation in the next four years?

A major concern is the Nation's ability to sustain the future of our sovereignty in the face of threats by the current US President. The assertion is that Native Nation people should be declared as a "race" and not be recognized as a first nation people. We, as native people, have always faced political extermination. Today is no different. How do we (Ho-Chunk) solidify our future? One goal is to amend the Constitution of the Ho-Chunk Nation strengthening the capacity to develop and implement reforms in areas of agricultural growth, economic development of policies and processes, investments, and structural transformation. These goals are achievable by bolstering our economy using diverse, advanced strategies, such as inviting industries into our Ho-Chunk communities. Secondly, programs and services require stronger language in their respective laws so that we (the Ho-Chunk People) for example, do not succumb to states who marginalize Native Nation sovereignty. Marginalization and colonialism damage our Ho-Chunk society, e.g. family break-ups, loss of culture and language, loss of ceremonial practices, day-to-day household sustainability (unemployment rate for Ho-Chunk is 20% of the adult population), and disparity in educational achievements due to racial inequities in classrooms. We must define and integrate human rights into our Constitution of the Ho-Chunk Nation as law which articulates the value and dignity Ho-Chunk People have contributed, using our unique presence throughout Wisconsin (transforming rural economies), Minnesota, and Illinois to manifest opportunities to address the challenges of poverty and unemployment by creating a government to lay the foundation for success.

2. What do you think about the Ho-Chunk people's investment into the gaming business and do you think any changes need to be made in regards to business ventures?

We need accurate numbers on the state of our tribe so we know the areas of highest need. We need to be better communicators to the members on what we are working on and what we will be voting on. We need to be accountable to the members and one way we do that is making our voting record public. We need to seek the input of tribal members on the operations of the tribe. These are some of the ways we can create a better government for the tribe and future generations. Some of the topics I hope to spend time working on finding additional solutions are as follows:

- Drug epidemic solutions.
- Language funding.
- Education programs
- Housing diversification
- Employment rights
- Green Energy
- Fiscal responsibility
- Business opportunities

2. What do you think about the Ho-Chunk people's investment into the gaming business and do you think any changes need to be made in regards to business ventures?

Business decisions should be made with careful thoughtful planning. When large financial investment decisions are made the public should have a way to provide input before final decisions are made. Public forums can be a part of the process.

We need to look at our education scholarships and put money in scholarships to fund business and other related degrees (at the Bachelors and Master levels). We will be a better Nation when we are able to run our own businesses with highly qualified tribal members.

We must also invest in small business development. This would provide additional options for tribal members to be employed and provide for themselves and their families.

The Nation has experienced tremendous growth in population, gaming, lands, housing, etc. We have surpassed our systems that were initiated back in the 1990's and now must plan and implement contemporary applications to guide the process of change in our management systems and procedures on an annual basis. It is my opinion that we are at risk, both internally and externally, as a fatality of corruption and fraud. The key is for multi-stakeholder col-

laboration throughout all our communities as a means to initiate uniform transparency and control at all levels of our government. Working with our communities to assist with deciding what those contemporary applications will be to help the Nation (our Nation) change the scope of how we do business, invite businesses, and/or create businesses. Engaging our Ho-Chunk People in our communities will help decrease social exploitation and economic fraud because all the people will have a vested interest in the outcome of their proposed resolution intended to benefit all Ho-Chunk People as well as safeguarding the best interests of our Ho-Chunk Nation.

1. What are some goals and objectives for the Ho-Chunk Nation in the next four years?

We need accurate numbers on the state of our tribe so we know the areas of highest need. We need to be better communicators to the members on what we are working on and what we will be voting on. We need to be accountable to the members and one way we do that is making our voting record public. We need to seek the input of tribal members on the operations of the tribe. These are some of the ways we can create a better government for the tribe and future generations. Some of the topics I hope to spend time working on finding additional solutions are as follows:

2. What do you think about the Ho-Chunk people's investment into the gaming business and do you think any changes need to be made in regards to business ventures?

But we must look outside of gaming as well. Green energy options would be something I would strongly support as an investment that has a return that cannot be measured monetarily.

3. Do you think any changes need to be made to the present blood quantum requirement for enrollment membership?

The Legislature does not make this type of decision. A consensus of our Nation needs to decide how we determine citizenship in our Nation and make that change if wanted in our constitution. The discussion needs to be had: How will we enroll people and determine citizenship in the future? Any suggestions for change need to be by Secretarial Election to amend Constitution.

4. Should there be any changes made to the present Children's Trust Fund and the disbursement of the monies as the children reach a certain age or level of education?

The Children trust fund has gone through many changes since its inception. It is protected, and at times during my term I hear tribal member concerns, and thoughts over the Children Trust Fund being used for various business projects, this is incorrect. Our Investment Officer Anthony Falcon offers his time to share information with tribal members who can make an appointment. The trust is protected in the signed agreement between the HCN and PNC Bank. The disbursement of the trust fund as children turn 18 and have earned a high school diploma. A General Council resolution created a Financial Literacy requirement before trusts are issued. The past leaders may not have realized that the trust would grow the way it did and the IGRA trust was the only way that it could be fully intact when it is withdrawn at the age of majority and when HS diploma was met, instead of annually. There was a substantial difference for children who are enrolled right away verses later in their age, the difference could be up to \$65,000. We also had 50% of the parents not filing taxes or paying taxes every year, so when the minor finally withdrew the trust, the minor was hit with all the penalties and fees by the IRS and Department of Revenue, obliterating the trust. Finally, and most importantly, up until now it wasn't in an IGRA trust, so it was not protected like it is now. I believe requirements should be updated, but one issue now that since they only pay taxes now once on a lump sum they pay at a higher level. There was talk of a staggered distribution when the change was initially being discussed. (i.e. receiving equal payments over three years) so they would stay at a lower level of taxable income. It is extreme-

ly important that tribal leaders have education and financial literacy knowledge to set up the best programs that they can for our minor and disabled or incompetent tribal members. Additionally, now that it is protected, it allows for disabled tribal members to obtain state aid. About 25 to 40 tribal members would have been removed off their institutionalized living arrangements and lose all their benefits if we did not go to a proper IGRA trust set up. This has been in the works for the past 15 years. Current leadership that put this into place (was our most competent financial leadership) regarding our Children's Trust Fund.

1. What are some goals and objectives for the Ho-Chunk Nation in the next four years?

The goals and objectives for the Ho-Chunk Nation over the next four years would be to establish a more proactive approach in taking care of our internal customer. The tribal employees' of the nation are the backbone and we need to be put forth more of an effort for their professional development and well-being.

2. What do you think about the Ho-Chunk people's investment into the gaming business and do you think any changes need to be made in regards to business ventures?

The Ho-Chunk nations' investment into the gaming business has truly done wonders for our people over the last 20 plus years, which has helped us establish various service departments that have helped our Ho-Chunk people and we couldn't be anymore thankful. But the gaming industry should have its steady flow of income in the foreseeable future. With this said the nation might need a little more diversified profile. One example would be to start looking into investing in other types of goods and services. (i.e. franchises) These might not be the big exciting moves that the tribe is use to, but would provide the tribe with other money makers besides the Gaming and Convenience stores.

1. What are some goals and objectives for the Ho-Chunk Nation in the next four years?

Change some of the current laws such as The ERA, add an ERA for our Enterprises; The Housing Act, and the L.O.A. Work on streaming lining Ho-Nation processes - cut the red tape. (i.e.: Education, Social Services, and Enrollment)

2. What do you think about the Ho-Chunk people's investment into the gaming business and do you think any changes need to be made in regards to business ventures?

As an individual who has

worked gaming, I would like to see our gaming properties be successful and provide the necessary revenue that our tribe needs to operate and grow. We need to have our Legislative and Executive Branches develop and implement a preventative maintenance plan for not just our gaming properties, but all of the Nations Buildings. We need to have some development at HCG- Nekoosa and Madison. These two properties desperately need up grades done in the very near future.

Erik J. Lincoln

1. What are some goals and objectives for the Ho-Chunk Nation in the next four years? I have made my rounds on the campaign trail and I have heard many concerns: housing, opioids and lack of funding to name a few. What I really

heard is that there is a lack of communication from our centralized government to our outlying communities. I have heard the frustration; I have experienced the frustration. At times it appears that the person delivering the message simply chooses not to without consideration to how it would affect the people downstream. My goal for the Nation is to identify and correct what is holding us back so that we can continue to grow again. We will need a strong foundation to build upon if we ever hope to move beyond our current methods of operations

of our various organizations. Through simple corrections we can clear the obstacles that hold us back and free up the much needed funding to correct our social woes. We will need to act together if we are going to continue or way of life. There is no quick fix to what we are experiencing, we need people that are passionate in the communities to initiate change. We need representation to champion through the initiatives and all of our relatives to celebrate our accomplishments to continue on the positive path forward.

2. What do you think about the Ho-Chunk people's investment into the gaming business and do you think any changes need to be made in regards to business ventures? I find it unacceptable that we are experiencing cutbacks in a time of economic growth that the rest of the country is experiencing. In the past few months I have deepened my appreciation for those who have served before me; this position has many great responsibilities across a broad spectrum of disciples. However we have grown accustomed to the "this is how we have always done it" and complacency is the downfall of any organization. Too many times I have seen that we put the importance of an individual ahead of the benefit of the Nation. These now common practices needs to be changed if we wish to continue our growth from the societal collapse we endured when our land was colonized. The casinos are the economic engines that drive all of our social programs and the main purpose for their existence. We need to write the laws that

enable them to operate at peak efficiency and provide as intended. I will not put my own personal financial and professional growth ahead of what I best for the Nation. I know that the tribal members in District Three will hold me accountable to my responsibility to best serve them. The D3 areas have been overlooked in the past and are ready for the support that is needed to grow our communities, heal our members and strengthen our standing within the larger communities that host us.

Thanks for reading my thoughts, I do not like to sound pessimistic but we do need to identify and discuss our areas for improvement if we truly wish to change and grow. We are an ancient culture trying our best to fit into a modern world through a very young government. We are here today because of those who prayed for us to carry on our traditions and ways. There will always be need to change the way we govern our people. We need people with conviction and integrity to make those adjustments as to ensure our traditions survive for another several millennia. I truly appreciate all of those that have served as legislative representations in the past. It takes a tremendous amount of self-sacrifice, patience and perseverance to fulfill the duties of this role. I have done this once before as a soldier and now I want to do so again as your representative. Students compete in annual Language Baseball games

Ken Luchterhand
Staff Writer

Learning a language can be trying and arduous. It also can be very rewarding when some amount of success is achieved. Any type of activity to bring about an enthusiasm about learning helps to encourage language students to persevere.

That's why the Ho-Chunk Language Department held its annual Language Baseball Tournament on Monday, May 13, and Tuesday, May 14.

"The game is to get the younger generation energized and excited to learn the Ho-Chunk language," Ho-Chunk Academy Language Division Program Manager Shane Yellow Thunder said. "They are already excited, but this gives them something to strive for and to have fun."

According to Yellow Thunder, the contestants compete on three different categories depending on levels of language proficiency. However, this year there weren't enough students in the levels two and three, so those students were combined into one level for the game.

In preparations for the Language Baseball games, students were given a booklet and 12 weeks to study.

During the game, each student takes a turn in throwing the dice. If a person rolls a single, the student must translate a Ho-Chunk word into English. If the student translates correctly, the student can take first base.

For a double, the student must translate an English word or phrase to Ho-Chunk. If the student rolls a triple, the student must translate a full sentence from Ho-Chunk to English. A home run requires the translation of a full sentence from English to Ho-Chunk.

On Monday, May 13, the Level 1 students had their competition, with Wisconsin Dells taking first place. On Tuesday, May 14, the Levels 2 and 3 students competed, with Black River Falls taking first place.

Employees volunteer their time to clean up highway

Ken Luchterhand
Staff Writer

Ho-Chunk Nation employees took to the edges of Highway 54 on Tuesday, May 14, for a common cause – to clean up the mess.

The effort was for the Adopt-A-Highway program, in which Ho-Chunk employees are responsible for a section of the highway from the Ho-Chunk Powwow Grounds to the Tribal Court buildings.

Employees took advantage of the sunshine and warmer weather to participate in the cleanup process. There were 27 people who volunteered, all who received a free T-shirt for their hard work, plus a lunch at noon.

Numerous garbage bags full of refuse were collected, creating a cleaner and more attractive environment.

SUMMONS
(First Publication)
IN THE HO-CHUNK NATION TRIAL COURT

In the Interest of Minor : D.P.H., DOB 8/11/2012
Case : PA 19-01

TO THE NATURAL MOTHER, POTENTIAL FATHER, GUARDIAN, HO-CHUNK NATION CHILD SUPPORT AGENCY, OR ADULT CHILD WHOSE PATERNITY WAS NEVER ESTABLISHED: Elissa B. Smith

You are hereby informed that you have been deemed an interested party in this paternity action. This legal notice of the filed *Petition for Paternity* is now served upon you by publication. A proceeding concerning the above-named child is pending in the Ho-Chunk Nation Trial Court, and an adjudication will be made.

You have twenty (20) days from the date of the fourth publication to respond to the *Petition for Paternity*, failure to do so will cause the Court to proceed without your participation. An *Answer* (response) shall be filed with the court at the address given below. The Court shall convene a *Paternity Hearing* in accordance with HOCAK NATION CHILD SUPPORT ENFORCEMENT CODE 4 HCC § 7.19.

The Court shall commence a proceeding at **10:00 am CDT** on the **20th day of June 2019** for the following purpose: **Paternity Hearing**. Pursuant to HOCAK NATION CHILDREN AND FAMILY ACT, Para. 3.35, the parties have a right to counsel at their own expense; a right to confront and cross-examine those appearing against them; a right to present and subpoena witnesses; a right to substitution of judge; and a right to a jury trial. You have additionally been provided a "Notice to Respondent" that sets forth your right and defenses and provides notice of the potential of being held in contempt of court:

NOTICE – VIOLATION OF THIS ORDER IS SUBJECT TO PROCEEDINGS FOR CONTEMPT OF COURT. SUBPOENAS: 'THE FAILURE TO COMPLY WITH A SUBPOENA SHALL SUBJECT THE PERSON FAILING TO COMPLY TO THE CONTEMPT POWER OF THE COURT.' THE COURT MAY FIND ANY PARTY TO THIS MATTER IN CONTEMPT OF COURT FOR FAILURE TO APPEAR AT A COURT HEARING OR FOR FAILURE TO FOLLOW COURT ORDERS.

Notice to Respondent

- You have been named in a petition alleging paternity. A judgment of paternity would legally designate the child as your child, grant rights to you, create the right of inheritance for the child, obligate you to pay child support and make failure to pay child support punishable as contempt.
- You may request a genetic test which will indicate the probability that you are the father of the child. The court will order a genetic test on request from you, a designated tribal agency, or any other party to the case. Any person who refuses to take a court ordered genetic test may be punished for contempt.
- The petitioner has the burden of proving by clear and convincing evidence that you are the father. If a genetic test shows that you are not excluded as the father and that the statistical probability of you being the father is ninety-nine percent (99.0%) or higher, you are presumed to be the father.
- The following defenses are available to you:
 - That you were sterile or impotent at the time of conception;
 - That you did not have sexual intercourse with the mother of the child during the conception period; or
 - That another man did have sexual intercourse with the mother of the child during the conception time period.
- If you fail to appear at any stage of the proceeding, including a scheduled genetic test, the Court may find you in contempt.

Dorothy "Hiyugiwi" Decorah

Dorothy "Hiyugiwi" Decorah, 100, passed away on May 4, 2019 at Atrium Senior Living in Black River Falls. She was born to Robert and Dora Greengrass, April 22, 1919 at home in the Indian Mission. She married Ed Decorah and lived her entire life in the Black River Falls area.

Dorothy was a true Christian. She would drive 42 miles one-way on Sundays to Reaching Out ministries. She was a former member of Winnebago United Church of Christ, co-founder and lifetime member of the Andrew Blackhawk Legion Auxiliary, and also taught language for the Head Start program. In her mid-life, she spent time as a foster parent. Dorothy liked to do word puzzles, bead work, applique, and spent several years making traditional Ho-Chunk crafts and baskets for Parsons Trading Post in Wisconsin Dells. Most of all Dorothy liked Pow Wows and loved to dance. She was a hard worker and once supervised a 5-man team who worked for the old "Green Thumb" project of Jackson County. Dorothy worked in the old pizza factory and sorted cranberries along the way. She did plenty of field work and also received the Women of History award for Jackson County in 1979.

She is survived by her children: Amos Kingsley, Jr., Betty Kingsley, Nettie Kingsley, Wanda Mae Rose, Laverda Richter, Jouita Lynn Orozco and Richie (Tina) Brown; step-son Ed Decorah; numerous grandchildren, great grandchildren, nieces, nephews, other relatives and special sister Velma Lewis.

She was preceded in death by her parents; husband: Ed Decorah; infant daughter, Patricia; and son: Jerry "J.J." Greengrass; brother: Donald I. Greengrass, Eugene Greengrass; sister: Dolly Greengrass; and half-brother: Norman Winneshiek.

Funeral services will be Tuesday, May 7, 2019 at 12:00 p.m. at the Buswell Funeral Home with Reverend Allen Skroch officiating. Visitation will be held 5:00 p.m. until 7:00 p.m. on Monday, May 6, 2019 at the Buswell Funeral Home and again on Tuesday morning from 10:00 a.m. until the time of service.

Pall bears: George Stacy, Al Carrimon, Casey Brown, Fabian Carrimon, Donald Greengrass and Ken Lewis. Burial will follow in the Decorah Cemetery.

The Andrew Blackhawk Legion Auxiliary will be hosting a luncheon at the Mission Community Building for family and friends following the burial.

The Buswell Funeral Home is assisting the family with arrangements.

Thank You

Sometimes in life, saying thank you just doesn't seem enough, now is such a time for our family. The last four weeks have been a very active time for us. First we celebrated a 100 year birthday, which was so enjoyable for our Elder, and then about two weeks later we experienced the passing of that same Elder.

We're so thankful that the first event was saluting her milestone and she remembered a better time in her life. We know, as our Ho-Chunk ancestors told us, that when we depart our relatives are waiting to greet us on the other side. Our elder is now with her beloved parents, feeling safe and cared about, no longer feeling the pain and the trials of this world.

For all of you who came far and near your presence blessed us and our Elder, thank you. For all of those who helped in every way that was necessary and caring to put our Elder to rest, thank you. For all others who were not present but remembered our Elder, and wished they could have been with us, than you.

May our wonderful and Great Creator bless you all for showing the true Ho-Chunk Spirit in our time of need.

The Family of
Dorothy
Greengrass Decorah
